

Michael Lee

Data Analyst Intern

ABOUT ME

Aspiring data analyst with hands-on experience in data cleaning, visualization, and statistical analysis through academic projects and internships. Enthusiastic about leveraging data to improve business processes and decision-making. Skilled in Python, SQL, and Tableau.

PROFESSIONAL EXPERIENCE

Data Analyst Intern

VisionTech, City, ST | June 2023 to Present

- Prepare datasets for analysis by cleaning and standardizing raw data from various sources
- Design Tableau dashboards for visualizing quarterly sales and marketing trends
- Assist in developing SQL queries to retrieve and analyze data for ad-hoc reports

Research Assistant

Data Science Lab, University of Analytics | September 2022 to May 2023

- Conducted exploratory data analysis on large datasets for academic research projects
- Implemented Python-based models to analyze trends in healthcare data
- Presented findings to faculty and peers using engaging visualizations
