# CYNTHIA GRAY

DIRECTOR OF ENGINEERING

#### PROFESSIONAL EXPERIENCE

Director of Engineering

Lockheed Martin, Orlando, FL | January 2019 – present

- Led a multidisciplinary team of over 20 junior and mid-level engineers, fostering an environment of learning and innovation while ensuring excellent performance metrics
- Managed numerous engineering projects, including a key jets development program with a budget of over \$300 million; delivered projects on time without compromising quality

#### Senior Lead Engineer

Apple Inc., Cupertino, CA | February 2010 – December 2018

- Oversaw the day-to-day activities of a team of over 30 engineers working on product development, including assignment allocation and performance monitoring
- Demonstrated exceptional project management skills in leading top-innovative projects involving advanced technical knowledge in engineering, including the company's latest flagship product line

## **KEY SKILLS**

- Advanced Engineering Techniques
- CAD software
- Project management
- Strategic planning
- Supervision

### PROFILE

A highly educated and dedicated senior engineering professional experience acquired with notable companies such as Lockheed Martin and Apple Inc. Track record of team leadership, project management, strategic planning, and advanced technical knowledge in engineering. Instrumental in strategic decision-making, product innovation, and operational improvements. Consistently enhances efficiency and quality within high-profile projects, while applying cutting-edge CAD technologies and engineering techniques.

### **EDUCATION**

#### Ph.D. in Engineering

University of California Berkeley, Berkeley, CA | 2004

Master of Science in Engineering Stanford University, Stanford, CA | 2000

#### **Bachelor of Science in Engineering**

Massachusetts Institute of Technology (MIT), Cambridge, MA | 1995

### CERTIFICATIONS

- Professional Engineer (PE), National Council of Examiners for Engineering and Surveying, 2010
- Certified Systems Engineering Professional (CSEP), International Council on Systems Engineering, 2008
- Certified Manufacturing Engineer (CMfgE), Society of Manufacturing Engineers, 2007
