KEY SKILLS

- Cloud technology
- Microsoft Azure
- Mobile app development
- Peer mentorship
- Team coordination

EXPERIENCE

Undergraduate Research Assistant | Harvard University, Cambridge, MA | September 2022 – present

- Help collect and analyze experimental data from 200 participants for a behavioral psychology research project
- Organize and code qualitative data to ensure data integrity across all phases
- Prioritize tasks under minimal supervision while managing time efficiently to meet project deadlines
- Advertised and scheduled research sessions, improving participant turnout by 40% through effective follow-up strategies
- Presented research findings at two university conferences, using visual aides to clarify complex information for over 50 faculty members and students

Co-Founder and Developer | App Development Club, Harvard University, Cambridge, MA | August 2022 – August 2023

- Co-developed and launched a campus-wide navigation app to enhance accessibility for Harvard students and staff
- Engaged over 1,000 users through surveys and feedback sessions to inform the team's improvement efforts
- Coordinated with university administration and IT departments to ensure compliance with data privacy and security policies
- Facilitated coding bootcamps for 125 students to enhance programming knowledge
- Raised over \$1,500 through sponsorships from local tech companies to cover club costs

EDUCATION

Candidate: Bachelor of Science (B.S.) Computer Science, Expected: June 2026

Harvard University, Cambridge, MA

- Cumulative GPA: 3.7

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals, Microsoft, 2022
