KEY SKILLS

- Blueprint interpretation
- Complex welding procedures
- Quality control
- Workplace safety

Professional Experience

Welding Technician | Bechtel Group Inc., Tulsa, OK
January 2020 to present

- Apply advanced welding techniques such as MIG, TIG, and stick welding to complex projects, increasing project completion speed by 20%
- Read and interpret blueprints and welding symbols to accurately execute project plans, reducing errors by 15%
- Implement safety procedures and regulations, decreasing workplace accidents and injuries by 30%

Apprentice Welder | Fluor Corp., Troy, OH
June 2018 to December 2019

- Helped prepare metal surfaces for welding, improving process efficiency by 25%
- Learned and applied various welding techniques under the guidance of experienced welders, increasing skill proficiency
- Ensured all welding safety standards and procedures were followed, maintaining a safe work environment

Education

- Bachelor of Science in Welding Engineering
OHIO STATE UNIVERSITY, Columbus, OH
- Associate Degree in Welding Technology
TULSA WELDING SCHOOL, Tulsa, OK
- Certificate in Welding
HOBART INSTITUTE OF WELDING TECHNOLOGY, Troy, OH

Professional Development

- American Welding Society (AWS)
- Certified Welder (CW)
- Certified Welding Educator (CWE)
- Certified Welding Inspector (CWI)
