Profile

A highly skilled Java full stack developer with a solid educational background from prestigious institutions and over three years of experience working with tech giants like IBM and Amazon. Proven expertise in designing UI, developing server-side applications, and managing databases, with a track record of improving application performance, user engagement, and data retrieval speed.

Professional Experience

Senior Java Full Stack Developer, IBM, New York, NY

- Led a team of developers in creating and maintaining a complex web application, resulting in a 30% increase in user engagement
- Implemented robust and secure server-side applications using Java, Spring Boot, and SQL, significantly improving the application's performance and security
- Designed and optimized database schemas and wrote complex SQL queries, leading to a 20% improvement in data retrieval speed

Java Full Stack Developer, Amazon, Seattle, WA

- Developed UI using HTML, CSS, and React.js, resulting in a more intuitive and user-friendly application
- Worked on server-side application development using Java and related technologies, improving the application's efficiency and reliability
- Managed databases, ensuring data integrity and security, and integrated them with the server-side application, enhancing the application's functionality

Education

Bachelor of Science in Computer Science

MASSACHUSETTS INSTITUTE OF TECHNOLOGY, Cambridge, MA

Master of Science in Software Engineering

STANFORD UNIVERSITY, Stanford, CA

Bachelor of Engineering in Information Technology

UNIVERSITY OF CALIFORNIA, Berkeley, CA

Key Skills

- Database management
- Java and JavaScript programming
- Server-side applications
- UI design and implementation

Professional Development

- Oracle Certified Professional, Java SE 8 Programmer (OCPJP 8), Oracle
- AWS Certified Developer Associate (ACDA), Amazon Web Services
- Microsoft Certified: Azure Developer Associate (MCADA), Microsoft

May 2017 - June 2018

June 2018 - Present
