- Agile project management
- Stakeholder communication
- Quality assurance
- Full stack development
- Team management

EDUCATION

Bachelor of Science (B.S.) Computer Science
Stanford University, Stanford, CA | 2016

PROFESSIONAL EXPERIENCE

IT Project Manager | TechNova Solutions, San Francisco, CA
May 2018 to present

- Lead a cross-functional team comprised of 25 engineers, software developers, and UX designers to deliver enterprise-level software projects valued at up to $500,000
- Oversee the planning and execution of large-scale cloud migration for a major client account to enhance system scalability and reduce server costs by 28%
- Spearhead initiatives to refine quality assurance processes, reduce debugging time by 32%, and achieve a 95% on-time delivery rate

IT Project Coordinator | BrightPath Tech, Oakland, CA
July 2016 to May 2018

- Collaborated with IT project managers to oversee infrastructure upgrades and software rollouts across three corporate offices with over 10,000 users
- Supported the implementation of a new customer relationship management (CRM) system, contributing to a 12% increase in client retention
- Created project schedules, performed risk assessments, and wrote status reports to identify potential roadblocks and ensure alignment with project deadlines

CERTIFICATIONS

- Project Management Professional (PMP), Project Management Institute, 2017
- Certified ScrumMaster (CSM), Scrum Alliance, 2016
