Mia Thompson

(555) 123-4567 | mia.thompson@email.com | San Diego, CA 92101

Profile

A motivated and detail-oriented entry-level Java developer with a Bachelor's degree in Computer Science and hands-on experience through internships and academic projects. Proficient in Java programming, database management, and debugging. Seeking to contribute to innovative software development projects.

Professional Experience

Java Developer Intern, SoftEdge Solutions, San Diego, CA   **May 2023 – August 2023**

- Developed small-scale Java applications to automate internal processes, increasing team efficiency by 15%
- Assisted in debugging and testing Java code for an e-commerce platform, reducing system errors by 10%
- Created and updated database schemas in MySQL to support new features

Academic Project: Library Management System   **January 2023 – April 2023**

- Built a Java-based library management system with user authentication, book inventory management, and loan tracking
- Utilized JDBC to connect the application to a MySQL database
- Demonstrated the project during a campus-wide tech showcase, receiving positive feedback for functionality and design

Education

Bachelor of Science (B.S.) Computer Science   **May 2023**

UNIVERSITY OF CALIFORNIA, San Diego, CA

Key Skills

- Core Java programming
- Database integration (JDBC, MySQL)
- Debugging and testing
- Object-oriented programming
- Agile development methodology

Certifications

- Oracle Certified Associate, Java SE 8 Programmer (OCAJP) | 2023
