## Professional Experience

Master Plumber and Foreman, Gulf Coast Waterworks | Houston, TX  
April 2017 - Present

- Managed plumbing projects valued at up to \$300,000, including system installations for municipal waterworks and large commercial buildings
- Lead a team of six laborers and two journeyman plumbers, ensuring adherence to OSHA safety standards and project timelines
- Conducted repairs and maintenance for over 350 water main systems, significantly reducing service downtime by 15%
- Designed and implemented a new valve installation process, improving efficiency and saving \$25,000 annually in labor costs

Journeyman Plumber, Lone Star Plumbing Pros | Houston, TX  
June 2011 - March 2017

- Coordinated with contractors and technicians to install plumbing systems for residential and small commercial properties
- Provided training to 12 apprentices on pipe fitting, safety standards, and troubleshooting techniques
- Diagnosed and resolved complex plumbing issues for over 200 clients annually, maintaining a 95% customer satisfaction rate
- Ensured all installations complied with state and local building codes
