Chicago, IL 60605 | (987) 654-3210 | samuel.bennett@example.com | LinkedIn

PROFILE

A journeyman plumber with seven years of experience specializing in commercial and residential plumbing installations, piping systems, and safety compliance. Proven ability to lead teams on large-scale renovation projects and deliver efficient solutions for complex plumbing challenges. Skilled in blueprint analysis, diagnostics, and contractor coordination.

KEY SKILLS

- Backflow prevention
- Blueprint reading
- Commercial plumbing
- Leak detection
- Pipe installation and repairs
- Water heater installation

PROFESSIONAL EXPERIENCE

Plumbing Technician

Windy City Plumbing Co., Chicago, IL | June 2018 - Present

- Direct the installation and repair of plumbing systems for commercial properties, including high-rise buildings and retail complexes
- Inspected and diagnosed piping system issues, providing actionable recommendations to improve efficiency and reduce costs by 20%
- Supervise teams of five apprentice plumbers, providing training on safety protocols and technical best practices
- Collaborate with contractors and architects to integrate plumbing designs into large-scale construction projects

Apprentice Plumber

Chicago Plumbing Solutions, Chicago, IL | October 2015 - May 2018

- Supported senior plumbers in the installation of water heaters, HVAC systems, and drainage systems for residential clients
- Conducted initial assessments to troubleshoot plumbing issues and coordinated material orders for project completion
- Attended safety training workshops and gained hands-on experience with backflow prevention and system diagnostics
