

# Lucas Mitchell

## ABOUT ME

Proven expertise in ensuring system reliability and scalability while implementing advanced technologies to meet organizational goals. Skilled in managing multi-site networks with thousands of users.

## PROFESSIONAL EXPERIENCE

### Lead Enterprise Network Engineer I June 2015 - Present

GlobalTech Systems, Atlanta, GA

- Designed and deployed SD-WAN solutions for a global network spanning 100+ locations, reducing latency by 40%
- Oversaw a team of 10 engineers in maintaining a multi-site MPLS network, achieving 99.9% uptime across all locations
- Migrated legacy infrastructure to advanced networking systems, resulting in a 25% increase in bandwidth utilization efficiency
- Conduct capacity planning to ensure the scalability of enterprise networks, accommodating a 20% increase in user base

### Network Engineer I May 2013 - May 2015

Prime Solutions, Atlanta, GA

- Managed the implementation of routing and switching solutions for enterprise clients, enhancing network speed and reliability
- Provided on-call support for network outages, resolving issues within an average of two hours
- Performed network performance analysis and recommended upgrades, improving data throughput by 15%

Atlanta, GA

## EDUCATION

### Bachelor of Science, Network Management

Georgia State University, Atlanta, GA  
May 2013

## KEY SKILLS

- Enterprise LAN/WAN architecture
- MPLS and SD-WAN solutions
- Network performance optimization
- Advanced routing and switching (BGP, OSPF)
- Network monitoring tools (SolarWinds, Wireshark)
