EDUCATION

- Master of Science (M.S.) in Cloud Computing

University of Washington, Seattle, WA | May 2019

KEY SKILLS

- Cloud computing (AWS, GCP, Azure)
- Kubernetes and docker
- Serverless architecture
- Python, Go, Java
- IaC (Terraform, Ansible)

PROFESSIONAL EXPERIENCE

Cloud Software Engineer | Amazon Web Services (AWS), Seattle, WA
July 2022 - Present

- Developed serverless applications using AWS Lambda, reducing operational costs by 30%
- Improved cloud deployment strategies, cutting downtime by 50%
- Design scalable architecture for large-scale applications, enhancing performance

Software Engineer | IBM Cloud, Austin, TX
June 2019 - July 2022

- Built automated infrastructure provisioning tools, reducing setup time by 60%
- Designed containerized applications using Docker and Kubernetes, improving scalability
- Developed cloud security features, ensuring compliance with industry standards

CERTIFICATIONS

- Google Professional Cloud Architect, Google Cloud | December 2020
