# SOPHIA BENNETT

Chicago, IL | (123) 456-7890 | email@example.com | LinkedIn | Portfolio

## PROFILE

Specialized in network architecture, routing, and multi-layer switching for medium to large-scale organizations. Proven ability to lead end-to-end implementation projects and troubleshoot critical issues, ensuring seamless operations and consistent uptime.

## KEY SKILLS

- Network architecture design
- Advanced routing protocols (OSPF, BGP)
- Wireless network optimization
- Network security audits
- Virtualization (VMware, Hyper-V)

## PROFESSIONAL EXPERIENCE

**Network Engineer**

TechSys Solutions, Chicago, IL | August 2018 - Present

- Designed and implemented a high-speed network infrastructure for a 1,000+ user base, improving data transmission rates by 35%
- Conducted security audits and deployed enhanced firewalls, reducing vulnerabilities by 45%
- Migrated the network to a hybrid cloud environment, cutting operational costs by 20% and enhancing scalability
- Develop detailed network diagrams and documentation, improving system understanding across teams and streamlining troubleshooting

**Junior Network Administrator**

Midwest IT Services, Chicago, IL | March 2016 - July 2018

- Configured and maintained Cisco switches and routers for multi-site networks, ensuring optimal performance and reliability
- Resolved over 50 critical network outages, maintaining uptime and minimizing disruptions for clients
- Assisted in implementing VLANs and VPNs to ensure secure data transmission across remote locations
- Conducted end-user training sessions to improve understanding of system functionalities

## EDUCATION

**Bachelor of Science in Computer Networking**

DePaul University, Chicago, IL
