KEY SKILLS

- Cloud computing
- Distributed systems
- Go, Java, Python
- Kubernetes, Docker
- Scalable architecture

PROFESSIONAL EXPERIENCE

June 2020 - Present

Senior Software Engineer | Google | Mountain View, CA

- Lead backend development for a cloud-based platform serving millions of users, improving system efficiency by 35%
- Designed and implemented a real-time data pipeline that reduced latency by 40%
- Collaborate with cross-functional teams to develop scalable microservices architecture

April 2017 - May 2020

Software Engineer | Amazon | Seattle, WA

- Developed and optimized backend services for AWS, reducing application programming interface (API) response times by 30%
- Built an ML-based recommendation system that increased user engagement by 20%
- Enhanced system security by implementing authentication and access control improvements

EDUCATION

Bachelor of Science (B.S.) in Computer Science

University of California, Berkeley, Berkeley, CA |

CERTIFICATIONS

Google Professional Cloud Architect, Google Cloud, October 2019
