

# Tara Thompson

## ABOUT ME

Experienced research assistant specializing in molecular biology

Dedicated research assistant with three years of experience in molecular and cell biology research. Adept at experimental design and statistical analysis.

## PROFESSIONAL EXPERIENCE

### Research Assistant

Molecular Biology Lab, Los Angeles, CA | August 2022 - Present

- Designed and executed CRISPR gene-editing experiments with a 90% success rate
- Analyze data from flow cytometry experiments, identifying trends for publication
- Contribute to three peer-reviewed articles on genetic mutation mechanisms

### Lab Technician

University Biology Department, Los Angeles, CA | May 2021 - August 2022

- Prepared samples and reagents for faculty research projects
- Trained undergraduate students in lab protocols, enhancing procedural accuracy

Los Angeles, CA

## EDUCATION

### Bachelor of Science (B.S.) in Biology

University of Science, Los Angeles, CA  
May 2021

## KEY SKILLS

- RNA extraction and purification
- CRISPR gene editing
- Flow cytometry
- Statistical modeling
- Technical writing
