

MG

# Maria Grant

Cell biologist with expertise in cell culture and regenerative studies  
Experienced cell biologist with a focus on regenerative medicine and cellular mechanisms. Proven ability to optimize lab protocols and conduct detailed research.

## CONTACT

## KEY SKILLS

- Cell culture and imaging
- Fluorescence microscopy
- Regenerative medicine research
- Protocol optimization
- Data analysis

## PROFESSIONAL EXPERIENCE

CELL BIOLOGY RESEARCHER | REGENERATIVE HEALTH LABS, LOS ANGELES, CA  
JUNE 2020 – PRESENT

- Developed a cell culture protocol that reduced experimental time by 20% while improving reproducibility
- Presented findings at an international regenerative medicine conference with 300+ attendees

RESEARCH ASSISTANT (CELL BIOLOGY) | CITY UNIVERSITY, LOS ANGELES, CA  
AUGUST 2018 – MAY 2020

- Conducted fluorescence imaging for cellular studies in wound healing
- Maintained and optimized cell culture procedures for advanced research

## EDUCATION

- Master of Science (M.S.) in Cell Biology, City University, Los Angeles, CA | May 2020
