David Collins

ABOUT ME

Conservation biologist with expertise in habitat restoration and species monitoring
Dedicated conservation biologist with over six years of experience in field research and community engagement projects. Skilled in species identification, GIS, and conservation program implementation.

PROFESSIONAL EXPERIENCE

Conservation Biologist | National Wildlife Foundation, Los Angeles, CA
May 2018 – Present

- Monitored endangered species populations, contributing to a 15% increase in numbers through conservation programs
- Coordinate educational workshops attended by 500+ participants annually

Research Assistant (Wildlife Biology) | University Research Center, Los Angeles, CA
June 2015 – April 2018

- Conducted field surveys to assess the impact of land development on local wildlife
- Published quarterly reports, informing policy changes for conservation efforts
