## EDUCATION

May 2013 | BS in Computer Science

Stanford University, Stanford, CA

May 2015 | MS in Data Science

Stanford University, Stanford, CA

## KEY SKILLS

- Java and Big Data Technologies
- Data Pipeline Development
- SQL and NoSQL Databases
- ETL Processes
- Hadoop and Spark

## PROFESSIONAL EXPERIENCE

Java Data Engineer | DataStream Corp. | Palo Alto, CA  
January 2016 – Present

- Developed data pipelines using Java and Apache Spark, reducing processing time by 30%.
- Integrated SQL and NoSQL databases, improving query performance by 25%.
- Automated ETL processes, enhancing data reliability.

Software Engineer | InfoData Systems | Palo Alto, CA  
June 2013 – December 2015

- Built Java-based data ingestion systems from multiple sources.
- Collaborated with data scientists to optimize data flows.
- Implemented monitoring tools to ensure data integrity.

## CERTIFICATIONS

- Oracle Certified Professional, Java SE 8 Programmer
