Seattle, WA | March 2017

KEY SKILLS

- Crisis intervention and de-escalation
- Psychiatric assessments and evaluations
- Substance withdrawal management
- Coordination with behavioral health teams
- Trauma-informed patient care

PROFESSIONAL EXPERIENCE

PSYCHIATRIC ER NURSE | HARBORVIEW MEDICAL CENTER, SEATTLE, WA SEPTEMBER 2020 – PRESENT

- Perform psychiatric evaluations for an average of 25 patients per shift, ensuring accurate diagnoses and treatment plans.
- Implemented a crisis de-escalation training program for ER staff, reducing restraint usage by 40%.
- Coordinate with mental health professionals to arrange follow-up care, decreasing patient readmission rates.

ER NURSE | SWEDISH MEDICAL CENTER, SEATTLE, WA JUNE 2017 – AUGUST 2020

- Provided immediate care for patients experiencing psychiatric emergencies, including acute psychosis and suicide attempts.
- Assisted in launching a substance withdrawal protocol, reducing ER complications related to detoxification.
- Worked alongside social workers to connect patients with mental health resources and support groups.

CERTIFICATIONS

- Psychiatric-Mental Health Nursing Certification (PMH-BC), American Nurses Credentialing Center, May 2018
- Advanced Cardiac Life Support (ACLS), American Heart Association, February 2017
- Registered Nurse (RN), Seattle, WA, March 2017
